Insurance coverage details

Basic coverage :

This will cover any partial damage that is not normal wear and tear (to be determined by technician). For metal bodied instruments this includes: dents, bent or broken keys, and solder joints. For woodwind instruments this includes cracks, bent or broken keys, and mouthpieces. For stringed instruments, this includes cracks, splits, and bow damage. This does not cover severe damage ... like being run over by a truck.

Full coverage:

This covers everything included with basic coverage, as well as coverage for fire, theft, complete body breaks, and loss of the instrument.
